I would like to build a new, larger than normal garage to store extra vehicles and have more storage for our personal items. Presently the current garage is not large enough to hold said items, so all vehicles are setting outside. We would like to convert the present garage space into living space, possible a new master bedroom.

We have attached a drawing of where we would like the new building to be built, behind house measuring 30 feet by 50 feet. We have also put together a list of all the neighbors surrounding our property.
