Engineering

To: Randy Hill, Public Works Director
FROM: Jon Lutz, City Engineer
DATE: June 2, 2014
RE: Request for Second Street Closure for Overpass Repair

INTRODUCTION:

The HON Company overpass on Second Street between Oak and Mulberry was damaged from a commercial waste hauling vehicle. Plans for repair were prepared and are under contract with Callacci Construction. Second Street closure is required to perform the repair.

BACKGROUND

On Wednesday May 28, 2014, representatives from HNI Corporation, City of Muscatine, IDOT and Callacci Construction Company met to plan the repair project. A detour route was prepared which is similar to the detour for closing the 2nd Street flood gate over Mad Creek. See attached detour map. Callacci Construction will provide traffic control and the City will assist. Iowa DOT will provide necessary signage for State roads (92 and 61 Business). Closure permits for IDOT are currently in process. Closure information has been shared with necessary City departments.

The planned closure will include Second Street from Oak Street to Mulberry and will begin June 6th, 2014 and last approximately 2 weeks.

RECOMMENDATION/RATIONALE:

It is the City engineer's recommendation that Council approve closing Second Street from Oak to Mulberry for building repair Friday June 6, 2014 for approximately 2 weeks.
