Re: ISCO Influent Flow Sampler

INTRODUCTION: The influent sampler for the incoming wastewater needs to be replaced. A bid was received from GPM of Omaha, NE for a new ISCO 6712 refrigerated sampler for \$6539.00 (including shipping). This is the only dealer for ISCO samplers for the Midwest region. A comparable sampler from Hach, Co. of Loveland, CO was quoted at \$6305.00 (without shipping) but would require stocking parts for a different manufacturer. The plant currently uses three ISCO refrigerated samplers. \$7400 has been budgeted for this purchase.

BACKGROUND: The refrigeration unit cannot be replaced and samples must be kept at a constant temperature 24 hours a day by EPA regulation. The new sampler will allow for refrigeration units to be changed out without buying an entirely new unit.

RECOMMENDATION/RATIONALE: Staff recommends the purchase of the ISCO 6712 sampler from GPM for \$6539.00.
