Re: Request for Setting the Week of Spring Clean Up for April 20- 24, 2015

Recycling Center
Transfer Station
Landfill Operations
Refuse Collection

Introduction:

The Public Works Department request that the Muscatine City Council set spring clean up week for April 20-24, 2015. In conjunction with Earth Day and Keeping Muscatine Beautiful, spring clean up week assists our residents in cleaning up their yards and homes. The efforts from members of our community and city staff assist with beautification in our community.

Background:

Spring clean up week is always a major event for the Solid Waste Division of the Public Works Department. As in the past, the Roadway Maintenance Division will be a valuable part of this week also, with their equipment and crews for larger items. There will be extra people assisting the solid waste crew, to ensure adequate staffing to handle the waste placed out at the curb during this week.

Recommendation for Items Picked Up from Residents:

The following items will be accepted for this year's spring clean up:

- Large items: furniture, building materials in small amounts, dismantled swing sets, and other misc. items.
- Up to eight (8) tires car and light truck tires (No tires from businesses)
- Up to four (4) appliances (Please remove doors on refrigerators and freezers)
- Electronic Waste (Computers, televisions, and any item that contains a circuit board).

Yard Waste: will be picked up in City of Muscatine yard waste bags only and brush needs to be in bundles no larger than 18 inches in diameter and 4ft. in length.

The following items will not be picked up at Spring Clean Up week:

- Torn down buildings, such as garages
- Car Bodies
- Large Trees
- Excessive amounts of concrete and building materials
- Paint and other hazardous chemicals (Accepted at the Transfer Station at no cost)
- Motor Oil (Accepted at the Transfer Station at no cost)
- Camper refrigerators & Air Conditioners (Accepted at Transfer Station for Fee)

Public Relations and Marketing of Event:

Public relations and marketing are important to make the clean up week a success with our residents. Local media such as the newspaper, radio, local access channel, information alerts, The Greener Side's public access program, e-newsletter, social media, and the City of Muscatine's website will be utilized to educate our residents on this event prior to the week of Spring Clean Up.
