Gregg — there is a significant deterioration of Washington Street between Walters and Lombard (red area highlighted). The cause is unknown but repair is required immediately. We are asking to close Washington Street between Lombard and Walters on Monday, March 16th thru Friday, March 20th. Work should be completed by then if not sooner.

To accommodate this construction work, a detour route using Lombard-Dale-Walters Street is proposed (orange area highlighted). We will also need to place temporary "No Parking" signs on the West side of Lombard, North side of Dale and East side of Walters (yellow area highlighted). And we will also post Washington for "No Truck Traffic" during this work.

I would request you share this with City Council at tomorrow night's meeting. Technically we need their approval to close a road for any extended period of time. If you have any questions, please contact me.

rhill
