MEMORANDUM

To: Randy Hill, Public Works Director
FROM: Jim Engineer, City Engineer
DATE: May 20, 2015
RE: 2015 Sidewalk Program Rejection of Bids

Equipment Maintenance
Roadway Maintenance
Collection & Drainage
Building & Grounds
Engineering

INTRODUCTION:

Bids for the 2015 Side walk program were opened this AM. Two bids were received and a recommendation is needed to take the project to the City Council for action.

BACKGROUND:

The two bids were as follows:
Heuer Construction- \$159,418.50
HyBrand Construction- \$165,659.50
The estimated cost from the City Engineer is \$120,000.00.

The bid from HyBrand was questionable due to one line of the bid being left blank. Also due to my oversight the contract documents did not get put on the City web site. Because of the bids coming in high and the other items listed above it is my recommendation that the contract package be rebid. This requires the City Council to reject all bids and to readvertise.

RECOMMENDATION/RATIONALE:

It is my recommendation that all bids be rejected and the contract readvertised as quickly as possible.
