Randy,

I want to inform you that we would like to close down Oak St. at the location of the new conveyor bridge that we will be putting in. The new bridge will be installed closer to 5<sup>th</sup> St. and just North of the old 4<sup>th</sup> St. location. We would like to shut it down at 7 a.m. on Saturday and then reopen the road on Sunday afternoon. I expect us to work a long day on Saturday to try and get the bridge set on that day but I can't make any promises to that. Is there anything that I need to do prior to that happening to satisfy anything on your end?

Best Regards,

Joe Williams
