Re: Request to Approve Asbestos Abatement Contractor

INTRODUCTION: The City has recently acquired the property known historically as the TeStrake property. The City is in the process of demolishing or de-constructing several buildings on the site. As part of the Mississippi Drive project, we intend to complete the activity on this project by later this Spring.

BACKGROUND: The process of demolition or de-constructing requires the City to abate the asbestos and certification to meet Iowa Law. The City has also worked with the Iowa DNR to provide financial assistance to for the abatement at the TeStrake site per the Asbestos Containing Material (ACM) inspection report, which was paid for by the IDNR under contract.

The City has recently conducted bidding for the asbestos abatement and the low bidder is Advanced Environmental Services for \$18,975.00. Staff has negotiated the start date to begin on the week of May 8th. The IDNR will give the City a reimbursement grant, which the IDNR will reimburse the City \$9,847.50, under a separate agreement.

RECOMMENDATION: Staff is requesting Council approval of Advanced Environmental Services as the contractor for asbestos abatement of the TeStrake property.
