RE: Request to Limit On-Street Parking on Smalley Street to the North Side Only  
from Park Avenue East to the Dead End.

---

### INTRODUCTION:

City staff have difficulty accessing the length of the street due to the narrowness of it when cars are parked on both sides.

### BACKGROUND:

Parking on Smalley Street between Park Avenue and the end of pavement east of Park Avenue is currently allowed on both sides of the street. With this configuration snow plows, and emergency vehicles cannot access the entire length of the street. All residences on this section of Smalley Street have existing driveways or alley access.

### RECOMMENDATION/RATIONALE:

Staff recommends that council approve this request to eliminate on-street parking on the north side of Smalley Street between Park Avenue and the end of pavement east of Park Avenue. This will allow better access for public services for snow removal and emergency response. No parking signs will be posted as soon as weather conditions permit.
