MEMORANDUM

To: Mayor and City Council Members

CC: Greg Jenkins, Interim City Administrator

FROM: Brian Stineman, Public Works Director

DATE: June 18, 2020

RE: Request for Road Closure

INTRODUCTION:

Muscatine Power and Water is requesting to close Linn Street between Mississippi Drive and #1 Alley along with a portion of #1 Alley for undergrounding of the 69kV overhead power lines.

BACKGROUND:

This is a continuation of the undergrounding work that is the final portion of the Mississippi Drive Corridor Reconstruction Project. MPW estimates the closure will be required from July 13 to August 17, 2020. This project will also restrict traffic on Mississippi Drive. MPW will use flaggers to help maintain traffic flow on Mississippi Drive during this time. MPW will also work with the property owners adjacent to the closure to provide access to their buildings during construction.

RECOMMENDATION/RATIONALE:

Approve the request for closure of Linn Street between Mississippi Drive and #1 Alley and reductions to traffic flow on Mississippi Drive to allow MPW to install underground wire.
