

# City of Muscatine

## AGENDA ITEM SUMMARY

City Council

DATE: 11/30/20

### STAFF

Pat Lynch, City Engineer  
Brian Stineman, Public Work Director

### SUBJECT

Request Purchase Order for Traffic Counting on Isett Avenue

### EXECUTIVE SUMMARY

The Public Works Engineering Division requests a purchase order to Shive-Hattery in the amount of \$5,000 for detailed traffic and pedestrian counts using pole mounted cameras on Isett Avenue from Lake Park Boulevard to the Cypress/Washington Street intersection.

### STAFF RECOMMENDATION

It is the recommendation of the Public Works staff to approve the purchase order request

### BACKGROUND/DISCUSSION

The Public Works Engineering Division has received a Traffic Engineering Assistance Program (TEAP) grant from the Iowa Department of Transportation to evaluate the existing traffic conditions on Isett Avenue Corridor from Lake Park Boulevard to Cypress and Washington Street and to evaluate and make recommendations for future pedestrian and traffic improvements in this area. The state of Iowa has selected a consultant and will pay for 100 hours of engineering time for this project. In order to maximize the study, detailed traffic and pedestrian counts are needed and these are not covered by the grant. This request is for a purchase order to Shive-Hattery in the amount of \$5,000 for detailed traffic and pedestrian counts using pole mounted cameras. The data will be delivered to the DOT for inclusion in the study. Once the study is completed and approved by the Iowa DOT it will be shared with the city.

### CITY FINANCIAL IMPACT

Funds for this purchase are available in the Roadway Maintenance Budget
