RE: Request for a Handicap Parking Stall @ 522 Mulberry

INTRODUCTION:

The City's Traffic Committee has received a request from the Hy-Vee Health Care at 522 Mulberry to install a handicapped parking stall in front of their store.

BACKGROUND:

There are no handicapped parking stalls along Mulberry. Customers of Hy-Vee Health Care are often elderly and/or disabled and designating a space in front of the building would assist these individuals when they need products or services from the business.

RECOMMENDATION/RATIONALE:

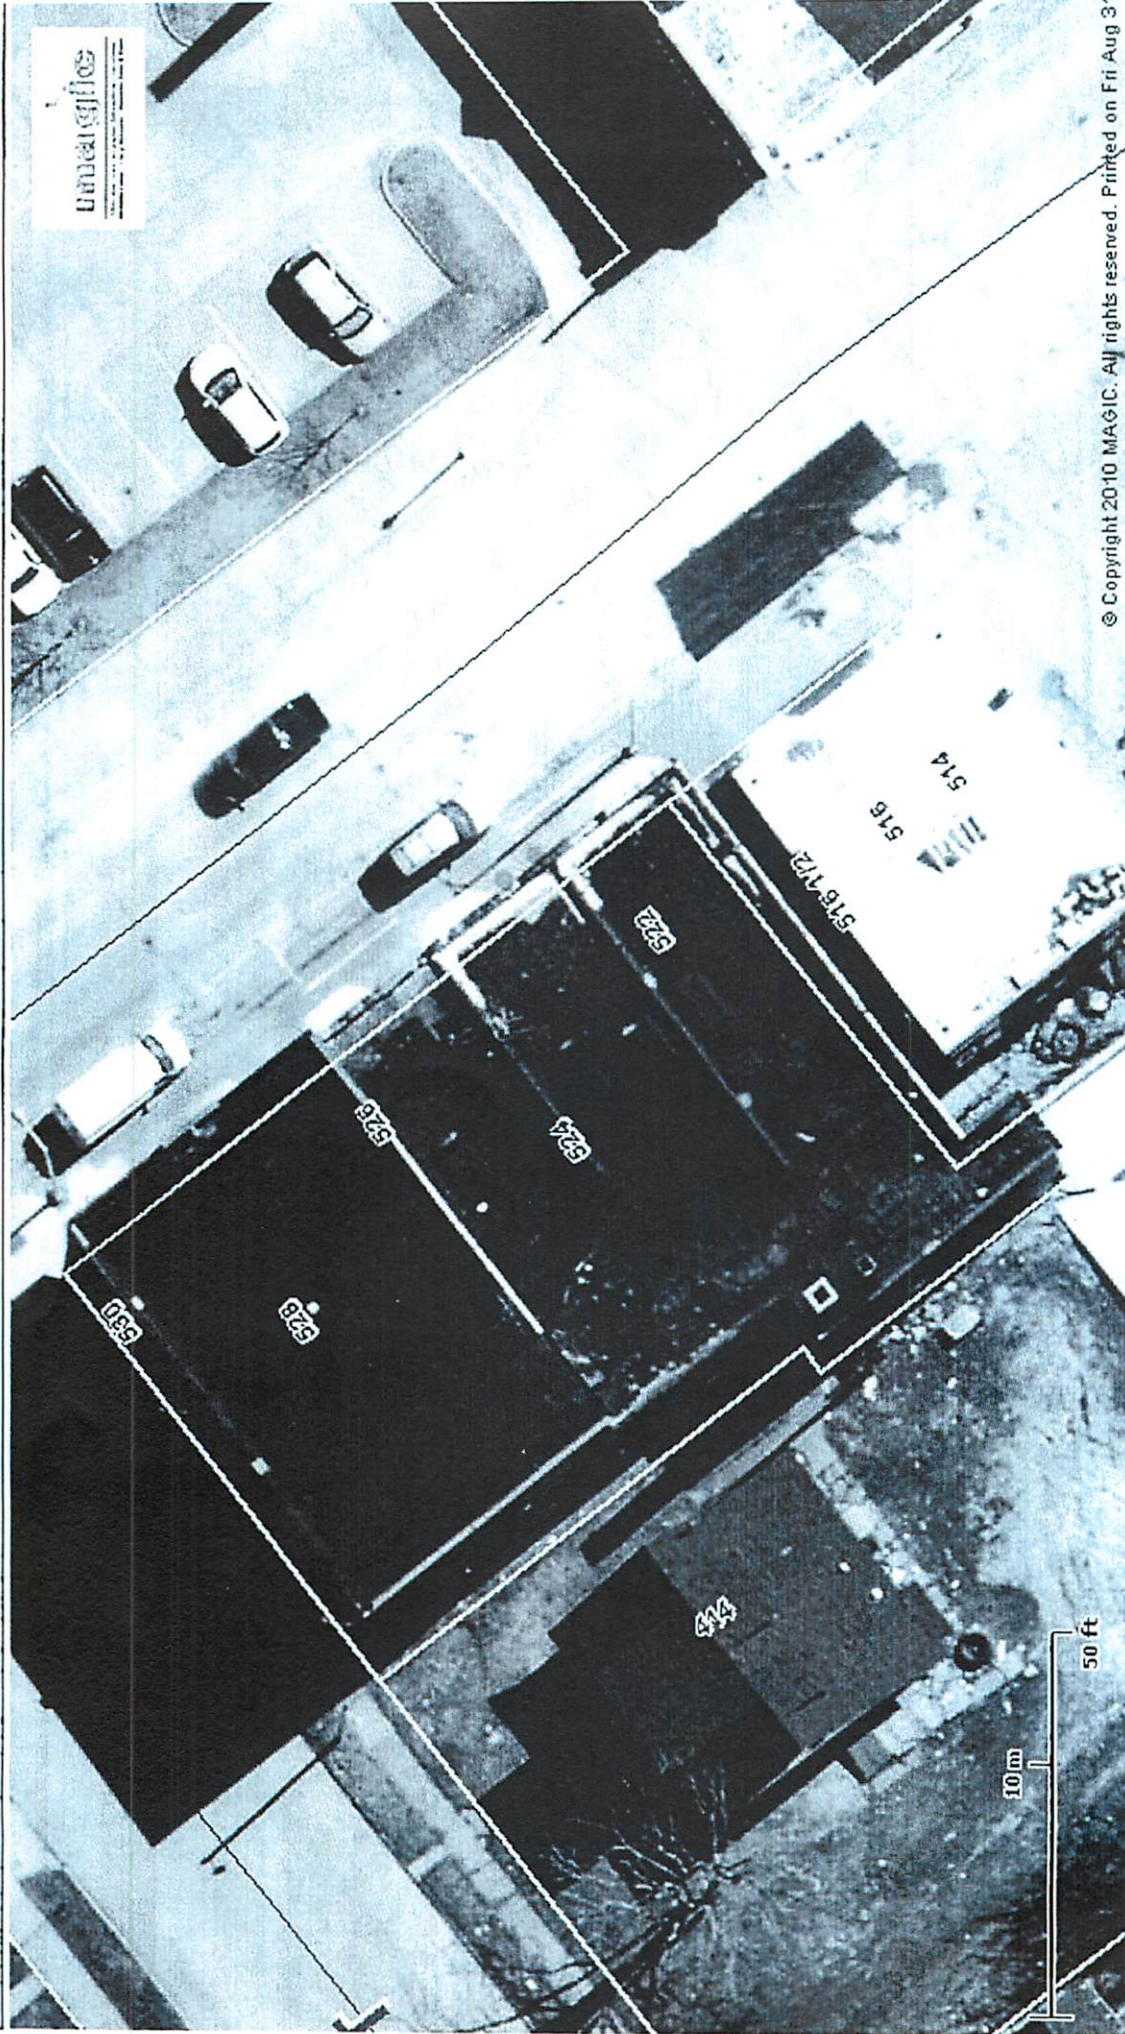

There are no metered parking spaces along this portion of Mulberry. The city attempts to designate handicapped parking stalls throughout the Central Business District in convenient areas where elderly & handicapped citizens often frequent. Considering the request is from a health care provider and no designated handicapped stalls are located along Mulberry, the City's Traffic Committee supports the request.
