FROM: Randy Hill, Public Works Director
DATE: November 13, 2012
RE: Muscatine Art Center-Museum Boiler Replacement Project

INTRODUCTION:

Requested for City Council consideration is a Resolution Accepting the Completed Work for the Replacement of the Art Center-Museum Boiler.

BACKGROUND:

City staff used the services of The Energy Group in 2010 to obtain an energy audit for several city facilities. It was determined that the oversized 1960's hot water boiler in the Art Center/Museum was antiquated and rated at a seasonal efficiency of 65%. Using this data the Public Works staff applied for an Energy Efficiency and Conservation Block Grant for the replacement of the boiler. In October 2011 the City was notified that we were awarded a \$16,886 grant.

RECOMMENDATION/RATIONALE:

The Art Center-Museum Replacement Project has been completed. There was one change order, a deduct of \$5,147, for a final price of \$70,937. The project is funded from TIF proceeds and EECBG grant.

Staff recommends Accepting the Completed Work and Authorizing Final Payment for the Art Center-Museum Boiler Replacement Project
