RE: Surplus Vehicles & Equipment

INTRODUCTION:

A list of vehicles and equipment is submitted for council action to declare as surplus property.

BACKGROUND:

Prior to 2009 the City of Muscatine held public auctions every other year to dispose of surplus equipment. We started using Public Surplus in June 2009 and have held eight (8) auctions since that date netting the city \$68,963.

RECOMMENDATION/RATIONALE:

The Public Surplus option has proven to be very successful. The City's Public Works staff recommends declaring the equipment and vehicles as sent to the City Administrator surplus property for disposal. This list includes property the City Council, Administrator and Department Heads have determined to be replaced or removed from our inventory.
