Re: Request for Approval of Agreement between the City of Muscatine and Louisa Regional Solid Waste Agency for Residential Household Hazardous Waste Services

Introduction:

The City of Muscatine and the Louisa Regional Solid Waste Agency have had a long standing working relationship to provide household hazardous waste services for Louisa County residents since 2006.

Background:

The City of Muscatine has had household hazardous waste disposal options for residents since the mid 1990's. The Iowa Department of Natural Resources (Iowa DNR) encourages all counties to have proper disposal methods of household hazardous waste programs available for residents. Due to the restraint in the size of population, staffing, and economics of a program of this nature, Louisa County found it challenging to create their own program. The Iowa DNR has supported and encouraged Louisa County to join another facility for this program. It has worked in the past and makes sense for Louisa County to be a part of our program. Our program is part of the Waste Commission of Scott County's program for household hazardous waste disposal. All of the materials collected here are sent to Scott County for proper handling and disposal with a hazardous waste facility.

The City of Muscatine would charge \$35.00 per household to the Louisa County Regional Solid Waste Agency for items brought to the Muscatine Recycling Center and Transfer Station for proper disposal.

Recommendation for the contract between the City of Muscatine and Louisa Regional Solid Waste Agency:

Staff recommends that the contract between the City of Muscatine and Louisa Regional Solid Waste Agency be approved for residential household hazardous waste services. This contract is for one year, from August 1, 2013 – July 31, 2014. The Louisa Regional Solid Waste Agency is planning to approve this contract at the July 16, 2013 agency board meeting.
