RE: 302 Fairview

Dear Connie,

We would like to request a street closing at 302 Fairview.

Our customer has an orangeburg sewer (installed in the 1950's) and it needs to be replaced from the house to city sewer main tap.

The city sewer is 75% of the way across the street from the house.

Expected time of closing would be 4 days to:
Demo and dispose of concrete and dirt spoils.
Excavate and lay piping.
Backfill, tamping and pouring concrete.
Curing of concrete.

Respectfully submitted by,

A handwritten signature in black ink, appearing to read "Gary Boche". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Gary Boche
