Re: Airport Security Gate & Camera
 Resolution Approving Contract & Bond

INTRODUCTION: On July 18, 2013, the City entered into a Grant Agreement with the State IDOT to fund the improvements identified as the Security Gate & Camera. Due to the scope and timing of the project, it was determined that solicitation of competitive quotes was the preferred method of proceeding with this project. On August 13, 2013, requests for competitive quotations were sent to 5 Targeted Small Businesses (TSB's) and 5 area prime contractors.

BACKGROUND: The Security Gate & Camera Project is one of 2 approved under this Grant Agreement; the other being the T-Hangar and Apron Drainage Project. Once installed, the gate and camera would be monitored and remotely operated from the terminal building by the FBO.

RECOMMENDATION/RATIONALE: Quotations were received by 3 area contractors who have combined their quotes into a single project quotation. On October 3rd, the City Council accepted the low quotation of \$54,395.00, from FSS Incorporated of Illinois City. It is now necessary to approve the contract and bond to permit this project to move forward. It is recommended that the City Council favorably consider the attached resolution approving the contract and bond for the project identified as the Security Gate and Camera at the Muscatine Municipal Airport.
