Re: Request for Approval of Agreement between the City of Muscatine and Louisa County Solid Waste Management Agency for Household Hazardous Waste Services

### **Introduction:**

The City of Muscatine and the Louisa County Solid Waste Management Agency have for the past five years entered into a contract for services provided by the City of Muscatine for household hazardous waste handling for Louisa County residents.

### **Background:**

The State of Iowa requires all solid waste management facilities to provide services for proper household hazardous waste disposal. The Louisa County Solid Waste Management Facility is a small facility that needed to provide this service to their residents, but due to staffing and budget restraints Louisa County found it challenging to create their own program. Muscatine Recycling Center and Transfer Station has had a program already set up for our residents since the mid 1990's. Our program is part of the Waste Commission of Scott County's program for household hazardous waste disposal. All of the materials collected here are sent to Scott County for proper handling and disposal with a hazardous waste facility.

In the fall of 2006, the City of Muscatine and Louisa County entered into an agreement for services from the City of Muscatine for Louisa County residents for proper disposal of materials. Each time a household from Louisa County brings items to the Muscatine Recycling Center and Transfer Station, the City of Muscatine charges \$35.00 per household to Louisa County.

### **Recommendation for the contract between the City of Muscatine and Louisa County Solid Waste Management:**

It is recommended by staff that the contract between the City of Muscatine and Louisa County Solid Waste Management be approved for the next year. This contract is for one year, from August 1, 2011 – July 31, 2012.

If you have any further questions in regards to this agreement, please contact me.
