Re: Hangar Access Road – IDOT Project No. 91100MUT100

INTRODUCTION: On July 14, 2009 the City was awarded IDOT funding for the construction of a Hangar Access Road at the Municipal Airport. The funds were originally approved for the construction of a maintenance hangar that was re-directed to this project when HNI terminated their lease Of Hangar #1.

BACKGROUND: The Hangar Access Road Project will permit access to HNI Hangar No. 2, road access for future hangar development, and serve the area between the airport entrance and the new joint Army Reserve/National Guard Armory Readiness Center located at the southeast corner of the airport property. The original contract award of \$88,431.75 was increased by Change Order No. 1 in November of 2010. That \$35,461.15 change order was approved through an increase in state funding, an increase in the city's 15% share for the overall project cost, and a \$16,431.00 contribution from HNI for the construction of the parking lot serving their corporate hangar. The access road construction is now complete and has been recommended for acceptance by the city's project engineer.

RECOMMENDATION/RATIONALE: I have attached a resolution approving the finished work and authorizing a final payment which represents 95% of the contract price including Change Order No. 1. The resolution further authorizes the release of the 5% retainage within 30 days of acceptance of the completed work.

RE: MUSCATINE MUNICIPAL AIRPORT
HANGAR ACCESS ROAD PROJECT
IOWA DOT PROJECT NO. 91100MUT100

Dear Steve:

As stated in our agreement for this project, we have inspected the work and reviewed materials testing results to ensure the design intent of the plans and specifications was achieved. A final inspection of the project was conducted on August 19, 2011. At that time, the only remaining items were the handicapped sign and the water service curb box adjustment. It is my understanding those items are now complete.

From our observations and knowledge, we feel the project is complete and in substantial compliance with all contract documents; therefore, we recommend the City proceed with closing-out the project and with accepting the project as being complete.

Yours very truly,

ANDERSON-BOGERT
