MEMORANDUM

To: Mayor and City Council Members
Cc: Gregg Mandsager, City Administrator
From: Steven Boka, Director of Community Development
Date: September 8, 2011
Re: Water Main Relocation – 2nd St Bridge at Mad Creek

INTRODUCTION: The City and the Corps of Engineers have entered into a Cooperation Agreement for the improvements to the Mad Creek Levee. Phase II of the Project is scheduled to get underway within the next two weeks.

BACKGROUND: The Cooperation Agreement with the USACE requires the city to perform certain tasks related to the Mad Creek Levee Improvement Project, related to lands, easements, relocations, demolition, etc. The most recent activity requires the relocation of the natural gas and water main from their current location near the 2nd Street Bridge crossing Mad Creek. The relocation is necessary to accommodate modifications at the bridge that will be used for a rolling gate closure structure that will protect this area during flooding events.

RECOMMENDATION/RATIONALE: MP&W has assisted the city's engineer for this project and secured three quotations from contractors that have performed similar work for MP&W in the past. The low bid received is from Triple B in the amount of \$35,587.00. It is recommended that the City Council authorize the issuance of a Purchase Order to Triple B in the amount of \$35,587.00 for the water main relocation at the 2nd Street Bridge crossing Mad Creek. This cost will be credited to the City's obligation for the Project.

Bcc: Steve Boka <sboka@muscatineiowa.gov>

Attached hereto please find the cover memo requesting permission to issue a purchase order for the relocation of a water main in the vicinity of the 2nd street bridge at Mad Creek.

Please place this request on the agenda for City Council approval during their September 15th meeting.

To: "Boka, Steve" <sboka@muscatineiowa.gov>

Steve,

Kris Hatfield at Muscatine Power and Water helped gather the following quotes from contractors for the above referenced work.

Triple B	\$35,587
Sulzberger	\$49,000
Langman	\$57,040

I thought you might want to take this to council on September 15th for approval.

I have attached Triple B's quote.

I'll assume you are going with the low bidder (Triple B) and will notify the Corps of the dollar amount for LERRD crediting.

By the way, if the contractor does not have to install a line stop, then about \$10,000 will be saved.

Let me know if you need anything else.

Thanks.
