- 32. Section 8 Housing revenues were \$50,082 less than estimated; expenditures were \$28,216 more than the original revised estimate. (Additional HUD funds for housing assistance payments are in a HUD-held reserve.)**

# Review of Impacts of the COVID-19 Pandemic on FY 2020/2021 and Future Budget Revenues

## **Background**

1. In mid-March of 2020 the Governor ordered all food and beverage facilities to suspend their indoor food and beverage services, and other non-essential businesses were mandated to be closed in an effort to reduce the spread of the coronavirus.
2. The City Council met several times in May and June of 2020 to discuss the projected impacts of the pandemic on the City's revenues and services. Revenues initially projected to be impacted included hotel/motel taxes, construction permits, Park department program and facility usage fees, parking fees, Road Use Taxes, and Local Option Taxes.
3. City Council was proactive in addressing these potential revenue shortfalls and took action to address the shortfalls while maintaining essential City services.
4. Council's initial actions included deferring the hiring of 4 new positions added in the original 2020/2021 budget, deferring the Pavement Management Program, and providing for additional review prior to making capital outlay purchases and filling vacant positions.

# Review of Impacts of the COVID-19 Pandemic on FY 2020/2021 and Future Budget Revenues (Cont.)

## Updated Impacts

1. As the 2020/2021 fiscal year progressed, it was found that Road Use Tax and Local Option Sales Tax revenues were not impacted to the extent originally projected. The \$1 million in Pavement Management Projects that were deferred in calendar year 2020 were scheduled to be completed in the spring of 2021.
2. The City's Aquatic Center did not open for the 2020 season which resulted in reduced expenditures (the facility re-opened in 2021). Due to the Governor's proclamations, several Park facilities were delayed in opening in 2020, but were opened as allowed (Soccer Complex, Kent-Stein Park, etc.). The 2021/2022 budget was based on all facilities being open and available to the public for the full fiscal year.
3. In October of 2020, the City received \$561,628 in COVID-19 Local Government Relief funds from the State. These funds were credited to the Emergency Tax Levy/ Emergency Fund, which had a balance of \$84,989.

## Actual Results in FY 2020/2021

1. Hotel/Motel Taxes were impacted by the pandemic, but not to the extent projected in the revised estimate for 2020/2021. The original budget included \$500,000 from these taxes and the revised estimate was reduced to \$250,000 due to a projected reduction in business travel. The actual hotel/motel taxes were \$374,448.62, which was **\$125,551.38 less than the original budget**, but **\$124,448.62 higher than the revised estimate**.
2. Construction permits were impacted by the pandemic, but not to the extent projected in the revised estimate for 2020/2021. The original budget included \$310,000 from construction permit fees and the revised estimate was reduced to \$150,000. The actual permit fees were \$167,473, which was **\$142,527 less than the original budget**, but **\$17,473 higher than the revised estimate**.
3. Interest rates were significantly impacted by the pandemic and are currently at near-zero rates. The original General Fund budget included \$60,000 in interest income and the revised estimate was reduced to \$20,000. Actual General Fund interest was \$13,260.58 which was **\$46,739.42 less than the original budget**, and **\$6,739.42 less than the revised estimate**.

# Review of Impacts of the COVID-19 Pandemic on FY 2020/2021 and Future Budget Revenues (Cont.)

## **Actual Results in FY 2020/2021 (Cont.)**

4. Property tax collections in the General Fund were \$64,432 higher than the revised estimate. This amount included \$62,648 in collections of prior fiscal year delinquent taxes. (Counties extended the due date for the March 2020 taxes several times and there was no tax sale held in 2020.)
5. The 2020/2021 revised estimate revenues included transferring \$100,000 of the State COVID Relief funds in the Emergency Tax/Emergency Fund to the General Fund. Due to other revenues being higher than projected, this transfer was not made since it was not needed to meet the targeted ending balance in the General Fund. Those funds were maintained in the Emergency Tax/Emergency Fund to be used in future years as needed. The balance in that fund is \$647,562 at the end of fiscal year 2020/2021.

# Review of Impacts of the COVID-19 Pandemic on FY 2020/2021 and Future Budget Revenues (Cont.)

## FY 2021/2022 Budget Items Related to the Pandemic

1. When the 2021/2022 budget was being prepared in January and February of 2021, City Council and staff were taking a conservative and cautious approach for estimating revenues. At that time COVID vaccinations were not yet available to most age groups, there were numerous individuals working from home, and businesses had not returned to more normal operations.
2. The 2021/2022 budget included adding back one of the three new firefighter positions that were originally added for the 2020/2021 budget but were deferred for hiring due to the pandemic. This position was added back effective April 1, 2021.
3. Hotel/Motel taxes were estimated at \$300,000 (down from the \$500,000 in the original 2020/2021 budget).
4. Construction permit fees were estimated at \$150,000 (down from the \$310,000 in the original 2020/2021 budget).
5. The 2021/2022 Budget was “balanced” by using \$300,000 of the State COVID Relief funds from the Emergency Fund.
6. While there are positive financial results at fiscal year-end in 2020/2021, portions of the economy have not fully recovered, and there are still reasons for using caution going forward.

# Summary

- The ending General Fund balance of 24.5% of expenditures is higher than the original 2020/2021 budget of 21.9% and higher than the 2020/2021 revised estimate of 22.3%.
- This ending balance meets the requirements of the General Fund balance policy adopted in November of 2013 which provides that the minimum General Fund balance be at least 16.7% (two months) of General Fund expenditures. The policy further provides that higher balances (to 25% or more) would “further add to the financial stability of the City and allow more latitude in addressing revenue or expenditure fluctuations, disaster situations, and demonstrate credit worthiness to bond rating agencies”.
- While the FY 21 General Fund balance ended higher than anticipated, there are still some revenue concerns going forward – these include hotel/motel taxes, construction permits, and interest. Having the strong ending balance in the General Fund positions the City to address these and other possible future budget challenges.
- One-time revenues from the State COVID Relief funds and CARES Act funding provided much-needed funding to the City to assist in continuing the current level of services to our residents in 2020/2021. A portion of these funds will carry forward to the 2021/2022 fiscal year. The City needs to continue to keep in mind that these are one-time funds.

# Summary (Cont.)

- In July of 2021, the City was awarded \$3,521,578.16 in American Rescue Plan Act (ARPA) funds with 50% of the fund received in calendar year 2021 with the remaining 50% to be received in 2022. These funds must be used for any of four purposes provided for in this Act. One of those purposes is for “revenue loss”.
- The City has been able to document a revenue loss of \$1,927,704 in calendar year 2020, which makes that portion of the ARPA funds eligible to be used for technology and/or other one-time expenditures. If revenue losses can be documented in calendar years 2021 and 2022, the remaining portion of the total amount allocated may also be eligible to be used for technology and/or other one-time purchases. These funds, or a portion of the funds, can also be used to balance the General Fund budget, if needed, in future years. Staff is currently compiling a list of possible uses of the ARPA funds.
- There were positive fund balances in all of the City’s operating funds at the end of 2020/2021. The Boat Harbor and Marina fund deficits were eliminated with transfers from the General Fund at the end of the year.
- Most other City funds have ending balances close to or higher than projected and are in good position going into the budget development process for the upcoming year.
