Park Maintenance Division

The month of September brought many special events to our park sites including: Food Truck Fight, Keep Muscatine Beautiful Almost Friday Fest, Barks and Brews Fest, Walk to End Alzheimer's, American Queen Voyage and a MHS cross country meet was held in Weed Park. HNI assisted in planting 22 trees through the Alliant Energy Branching Out Grant. Staff has also been working hard in closing down and winterizing the Muscatine Aquatic Center. The United Way Day of Caring took place on Wednesday, September 20, with many volunteers helping to mulch trees and plant beds in Weed Park. Riverfront buildings and shelters throughout our parks were very well utilized during the great weather in September. Staff began working on cleaning out the landscape beds throughout the parks in preparation for the upcoming winter season.

Kent Stein Division

Kent Stein Park hosted two one day softball tournaments in September. These tournaments were hosted by the local Monsters Softball Organization. The Saturday tournament had 28 teams and utilized 7 fields. The Sunday tournament had 27 teams and utilized 6 fields. During the regular week Kent Stein Park continues to host our local organizations: MYB (Muscatine Youth Baseball), MBA (Muscatine Baseball Academy), MGSA (Muscatine Girls Softball Association), Muskies Prospects softball, Monster's softball, Muscatine High School baseball, and adult softball (3 divisions- Men's, Women's, and Co-ed). Staff has started to change out light bulbs in both restrooms to LED bulbs. The west concession stand has been painted and the east restrooms will be completed as time allows. Fields were aerified and thin areas were seeded. We have filled some of the vacant seasonal positions but are still in need of a few more.

Soccer Complex Division

The soccer complex hosted two different tournaments the month of September. The first tournament was the SOMOS HNI Fiesta and they utilized 7 fields. The Muscatine Soccer Club hosted the second tournament and utilized 14 fields for 91 teams. The following groups had a combined total of 160 games in September: Pearl City Soccer Club (youth and adult leagues), Muscatine Soccer Club (youth and adult leagues), ILLOWA, Community Y and ISA. Staff continues to make improvements to the park to include: seeding, rolling and slicing fields, repairing divots, raising sprinkler heads for better playability and edging valve box lids for easier access when servicing the sprinklers. The soccer complex irrigation project has started and will take approximately 5 weeks. We have filled some of the vacant seasonal positions but are still in need of a few more.

Golf Divisions

The course hosted the Muskie Pride outing and the Special Olympics of Iowa golf outings in September, as well as a Musco employee outing. All but one of the weekly leagues wrapped up in September. As the season slows down, staff will begin to start planning for next season. Greens were core aerified and topdressed to relieve compaction and for water movement after a dry summer. The plugs were used around the golf course to fill holes. Tees were seeded with a bluegrass-ryegrass mixture. Par 3 tees and the driving range tee were closed for the month of September to let the new seed grow since they take the most abuse. Alternate tees were mowed so golfers could still play the par 3 holes and hit off of grass. Bunkers were edged to give them a nice appearance. Fairway aerification has started and will continue through October with the hope of relieving compaction from constant golf cart wear.

Department of Public Works

The Public Works Department is composed of eight divisions which include: Administration, Building & Grounds Maintenance, Collection & Drainage, Engineering, Roadway Maintenance, Solid Waste, Transit (Muscabus), and Vehicle Maintenance. For budgeting purposes several of these divisions are broken down into subdivisions. For the purpose of the monthly report there will be several divisions that will be reporting consistently, while others may only be reporting on special events or accomplishments.

Roadway Maintenance Division September 2023:

Roadway Maintenance includes activities related to street repairs, snow removal, traffic control, and street cleaning. They are responsible for over 254 lane miles of streets within the city limits.

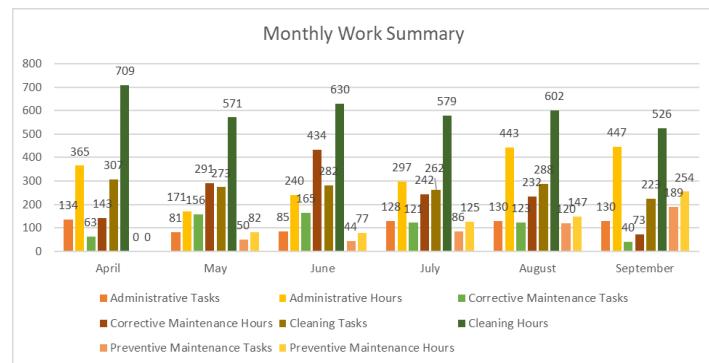

This measure indicates the number of potholes filled, and the approximate cost to fill each pothole. Beginning January 20, 2021, a "standard" pothole is defined as being the size of large pizza box. Potholes will be divided no smaller than one half of a pizza box. Beginning in April of 2022, we began tracking pavement repairs separately from potholes. This has lowered the pothole numbers as many of them were previously counted in larger pavement patches.

Building and Grounds Activities September 2023:

The Buildings and Grounds Division of the Public Works Department is responsible for the upkeep and repair of city facilities, grounds, and equipment. The division is responsible for maintaining the following facilities and

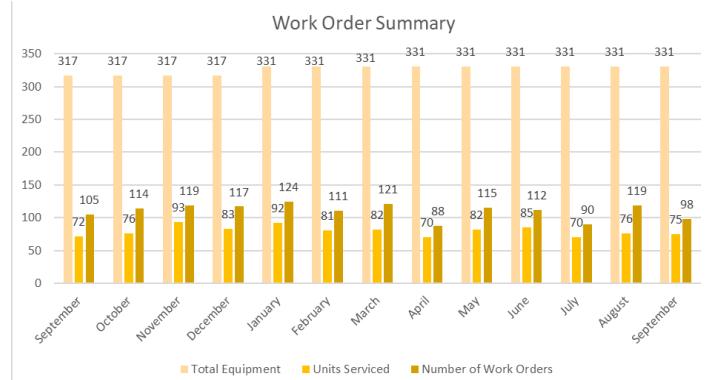

grounds: Art Center, City Hall, Library, Public Safety Building, Public Works, South Fire Station, and certain maintenance functions at the Airport.

This chart indicates the number of work activities and the hours committed to them per month. Administrative tasks include ordering equipment and materials, requesting and receiving bids and quotes for work or supplies, project oversight, delivery of building supplies, training and paid time off. Corrective maintenance tasks are unscheduled repairs or work done on as-needed or emergency basis. Preventive maintenance tasks include routine, scheduled maintenance items. Cleaning includes building cleaning and janitorial services. This chart is being capped at six month intervals so that the numbers are legible.

Vehicle Maintenance Division September 2023:

The Vehicle Maintenance Division services and repairs approximately 331 pieces of equipment and vehicles from all city departments with the exception of the fire trucks and ambulances.

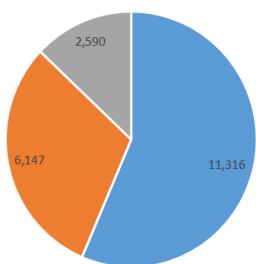

Department of Public Works

Solid Waste Division Report September 2023:

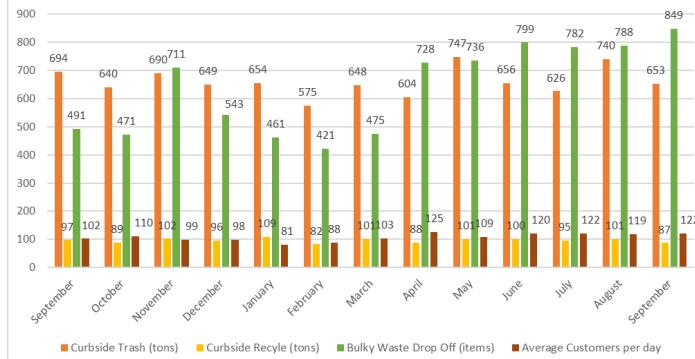

Collection & Drainage Division September 2023:

The Solid Waste Division consists of activities related to refuse collection, transfer station, compost site, and landfill, as well as overseeing the contracted recycling collection.

Bulky Waste Pounds Per Stop, Per Month

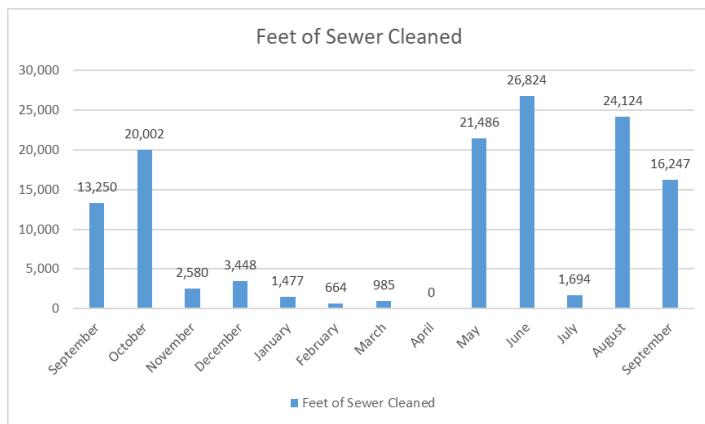

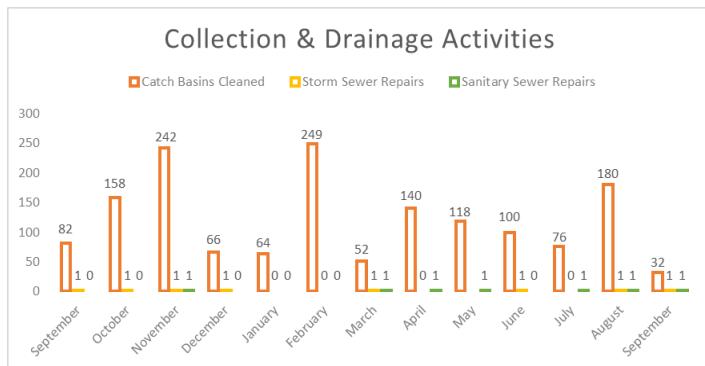

Solid Waste Collections

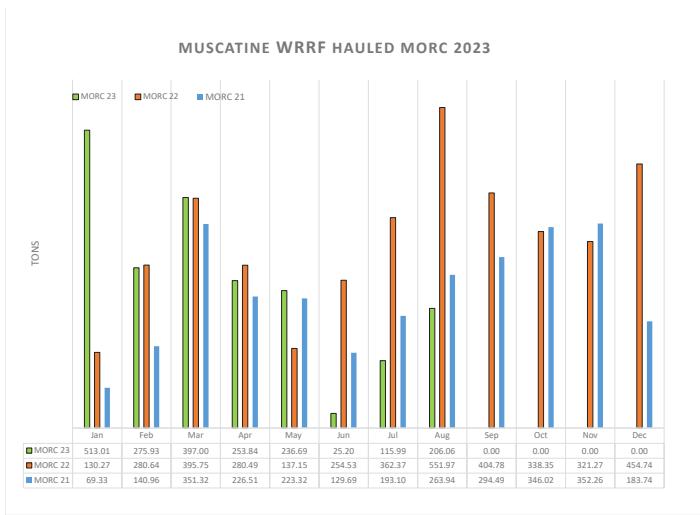

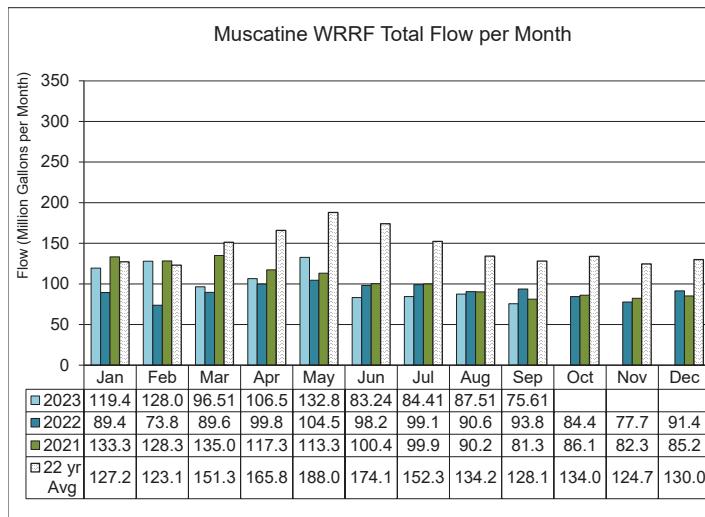

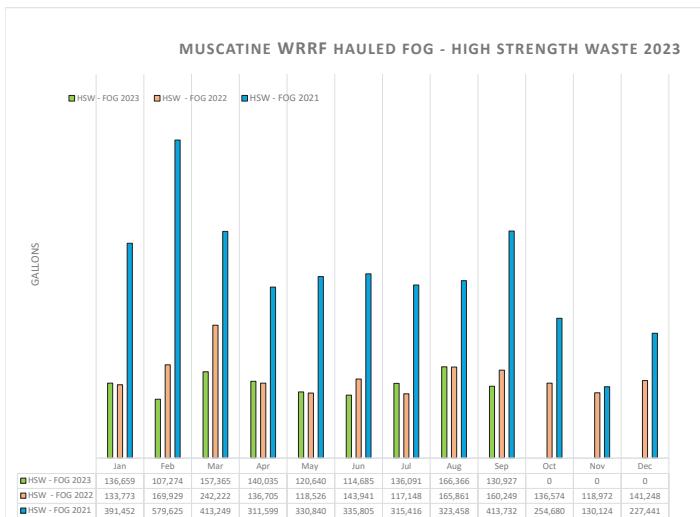

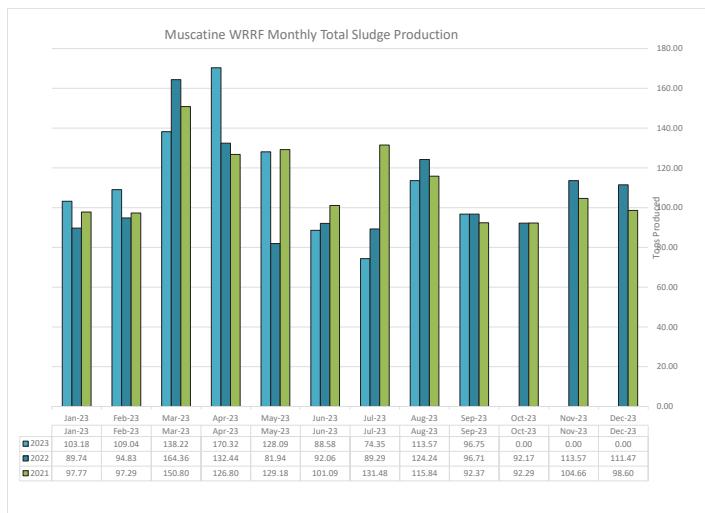

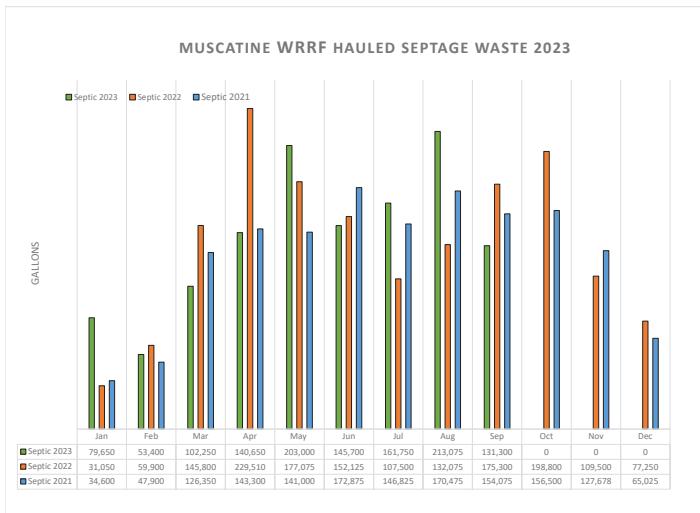

This chart shows the amount of solid waste collected curbside (in tons) as well as the amount of material dropped off at the Transfer Station (per item). Dropped off items include: electronics, appliances, tires, household hazardous waste and recyclables. Also included is the average number of customers per day at the Transfer Station.

The Collection & Drainage Division is responsible for inspecting and maintaining the city's sanitary, storm, and combined sewer systems. This includes 993 storm water manholes, 2,407 sanitary sewer manholes, 151 combined sewer manholes, 2,840 stormwater catch basins, 112 miles of sanitary sewer and 68 miles of storm sewer pipe.

THE STORY OF SEPTEMBER 2023

PEOPLE LOVE WHAT WE DO AND WE LOVE SHARING THAT WITH YOU!

We saw a lot of people stopping in for the Hispanic Heritage event. Near the end of the day, a boy was looking for his older brother, but was scared to go to 3rd floor alone. A second boy jumped at the chance to help him. A third heard about the adventure and excitedly said he'd ask his dad if he could go too! They proceeded to explore the whole library, chatting about books they were reading and how the "3rd floor wasn't even scary". It was amazing to see these three boys who didn't know each other came together for a shared purpose and love of reading.
